

## How to register for a meet online

1. Print out the meet information
2. Highlight the events your swimmer would like to swim. Please do not exceed the maximum amount of events per session or total amount of events for the meet. Do not sign them up for relays. The coaches handle the relay events. If they do not want to swim in a relay, or are unable to, please let us know in the comments section.
3. Click on the registration link in the right column next to the meet information. If this space is blank registration is not open yet.
4. Login to your account
5. Pick the swimmer you would like to sign up
6. Enter the event number in the box next to the distance and stroke. Typically girl's events are on the left side of the meet info and boy's events are on the right side.
7. When you are finished choosing events you will be directed to payment.
8. You should get an email confirmation with your swimmers events. Double check the event numbers and events are correct.
9. If you are signing up multiple swimmers repeat steps 5 -8.
